- React application
- Sort Functionality
- Deployed to GH pages
- Repository: https://github.com/cdunahee36/Employee-Directory/

Entertainment-App | url: https://cdunahee36.github.io/mega/
- Written in JavaScript
- Integrated APIs
- React application
- Deployed to GH pages
- Repository: https://github.com/cdunahee36/mega/

EDUCATION AND TRAINING

Certificate: Full Stack Web Application Development
Northwestern University | | Evanston, IL | 2021
Coding Bootcamp specifically for Full Stack Web Application Development. The course kicked off with CSS and HTML5 fundamentals, later progressing into JavaScript fundamentals, Heroku Deployment using MongoDB and MySQL. The course was rigorous and consisted of 18 difficult assignments plus three group projects using GitHub. The Bootcamp concluded with multiple weeks of learning React and creating multiple MERN Full Stack applications.
